

1	MISCELLANEOUS	20	..Reel section
2	DECOYS	21	...Motor operated
3	..Duck	21.2	..Holders, supports, steadying devices
4	FISHING	22	..Reel mounts
4.5	..Methods of fishing	23	..Butts
5	..Fish landing devices combined with tackle, e.g., gaffs, grapples	24	..Line guides or tips
6	..Harpoons and spears	25	..Attachments
6.5	..Gathering or catching device with conveyer to boat	25.2	...Hook and tackle holders
7	..Nets	26	..Cases
8	..Handling apparatus	26.1	..Motor-operated
9.1	..Trawl	26.2	..Artificial bait
9.2	...Having excluder device	27.2	..Trolley apparatus
9.3	...Having limiting or limit indicating feature	27.4	..Fixed support line handling means, e.g., trawls
9.4	...Bottom running sled	34	..Trap hooks
9.5	...Bottom running roll	35	..Artificial bait
9.6	...Utilizing electrical shock to control fish or aquatic animal	36	..Expanding
9.7	...Having specific flow affected board device for holding net mouth open, e.g., an otterboard, etc.	37	..Pull-actuated
9.8	...Having specific line element	41	..Enclosed or protected
9.9	...Having specific chafe preventing element	41.2	..Casting guards
9.95	...Fabric construction	42	..Artificial bait
10	..Gill	42.02	..Line surge action with biased reaction
11	..Dip	42.03	..Automatically movable directing vane
12	...Foldable	42.04	..Shiftable on strike
13	..Fish wheels	42.05	...Lure slidable on line
14	..Seines	42.06	..Substance emitting and/or water passage
15	..Automatic hookers or catchers	42.08	..Interlocked hook lure and line connections
16	..Signaling	42.09	..Interchangeable body parts
17	..Signal devices	42.1	..Flexible body's housing or guarding hook
17.1	..Electric current or sonic wave energy	42.11	..Plural lures and movably connected rigid lure members
17.2	..Releasing devices	42.12	...One member within the other, at least one spinning
17.5	..Illuminated, e.g., luminous	42.13	...Plural movable members offset or at sides of body
17.6	..Artificial bait	42.14	...Plural rotating members
18.1 R	..Rod	42.15	...Movably connected in series
18.5	..Fiber glass or graphite fishing rod	42.16One member rotating
18.1 CT	..Collapsible, telescoping, foldable, or discreet sections connectable to each other	42.17Sheet material member preceding and rotating
18.1 HR	..Line passing through hollow rod	42.18Sheet material
19	..With line propelling or trajecting means	42.19	..Spinner rotatably mounted on shaft
19.2	..With nonreeling motion means for rod and line, or line	42.2	...Spiral or oppositely turned vanes
		42.21Plug or minnow type

42.22	..Adjustable direction or buoyancy control	42.74	..Spreaders or separators for plural lines and/or hooks
42.23	...Selective or shiftable lure to line connection	43.1	..Line-attached bodies, hooks and rigs
42.24	..Flexible or with flexible appendages, e.g., worms	43.11	..Line storing
42.25	...Feathers, strands, fibers, etc., only, e.g., flies	43.12	..Releasable from line, e.g., casting weights
42.26	...Bodies with plural side-attached appendages	43.13	..Line-guiding or twist-controlling, e.g., trolling vanes, otters
42.27Wing simulations	43.14	..With adjustable weight or buoyancy
42.28	...Bodies with trailing appendages	43.15	..Plural diverse-type bodies
42.29Detachable bait strip	43.16	..Hooks
42.3Two rearwardly directed appendages, e.g., frogs	43.2	...Guards, e.g., weedless hooks
42.31	..With confined shifting material and/or sound making	43.4Shiftable, collapsible, or line-operated
42.32	..Ornament	43.6Hook closing
42.33	...Transparent, with reflector or pattern	44.2	...Bait holders and retainers
42.34	...Projections and indentations for simulation and reflecting	44.4Bait encircling
42.35	..Hollow bodies	44.6Opposed gripping jaws
42.36	..Hook and line connection extending through or along body	44.8Mounted on, integral with, or rigidly connected to hook
42.37	..Mounted on hook	44.81	...Weighted
42.38	...Detachable	44.82	...With plural piercing points
42.39	..Weighted	44.83	...With leaders and/or line-connection feature
42.4	..With guards	44.84Branch or lateral line type
42.41	...Hook housed or guarded by body	44.85Adjustable along line
42.42	...Guards downwardly projecting	44.86With check or collect ring keeper
42.43	...Hook closing	44.87	..Selectively free sliding or fixed on line
42.44	..Hook pivoted to lure with motion-limiting means	44.88	...Line strain or motion actuated, e.g., strike or pole tip released
42.45	..Solid bodies	44.89	..Bendable or deformable material for line connection, e.g., split shot
42.46	...With spiral or vanes for spinning	44.9	..With line passing through center of body
42.47	...With sheet material vane	44.91	...With line-gripping means
42.48	...Plugs	44.92	..With relatively movable parts and/or resilient construction for attachment to line
42.49	..Special line attachments	44.93	...Movable wedge or collect ring type
42.5	..Spoon type	44.94	...Spiral or pigtail line holder wrapped around stem
42.51	...With spiral or oppositely directed vanes	44.95	...Resiliently biased or elastic line clamping means
42.52	...Nonmarginal and/or nonpivoted hook attachments	44.96	..Sinkers with ground-engaging means, e.g., trolley or surf anchors
42.53	..Methods of making		
42.7	..Snagging and shellfish rigs, e.g., jiggers		
42.72	..With line shock absorber or resilient extension feature		

44.97	..Sinkers with guards or retrieving features	96	..Attachments
44.98	..Lines and/or leaders	97	...Setting
44.99	..Bait distributors, e.g., chumming devices	98	..Electrocuting
53.5	..Disgorgers and gags	99	..Body-removing or concealing
54.1	..Holder	100	..Fish
55	..Catch and natural bait	101	..Weirs
56	..Minnow buckets	102	..Elevatable cage
57	...Aerating pump	103	..Portable or floating
57.1	..Hook	104	...Towable
57.2	...Holder for snelled hook under tension	105	..Foldable or collapsible
57.3	..Trotline holder	106	..Porpoise
58	TRAPS	107	..Insect
59	..Burglar	108	..Tree trunk
60	..Imprisoning	109	..Furniture
61	..Swinging or sliding closure	110	..Operator-controlled
62	..Falling encaging member	111	..Mechanically operated
63	..Jaw cage type	112	..Electrocuting
64	..Self and ever set	113	..Illuminated
65	..Nonreturn entrance	114	..Adhesive
66	...Victim-opened	115	...Flypaper holders
67	...Victim-closed	116	...Flexible with drawable section
68	..Sinking compartment	117	...Upright perch slidable receptacle
69	..Tiltable platform	118	..Reticulate fabric
70	...Trigger-released	119	..Window screen or door
71	..Rotatable platform	120	..Garbage can
72	...Trigger-released	121	..Crawling insect type
73	..Self-reset	122	..Fly vases
74	..Rotating door or platform	123	..Bedbug type
75	..Smiting	124	VERMIN DESTROYING
76	..Victim-reset	125	..Fumigators
77	..Impaling or smiting	126	..Tree apparatus
78	..Rectilinear striker movement	127	..Smokers
79	...Impaling	128	...Bee type
80Burrow type	129	..Vaporizers
81	..Swinging striker	130	...Steam
81.5	...Auxiliary striker holder	131	..Poison holders
82	...Direct engaging latch	132.1	..Insect
83Automatic catch	133	..Catchers
83.5	...Automatic set	134	...Implements
84	..Explosive	135Spring-operated
85	..Choking or squeezing	136Adhesive
86	..Movable loops	137Swatters
87	..Constricting noose	138	...Machines
88	..Jaw	139Suction
89	..Suspended	140Traveling
90	..Modified jaw	141Blast
91	...Parallel oscillating	142Rotated agitator
92	..Modified trigger mechanism	143Oscillated agitator
93	...Direct engagement	144	..Burners
94Wedge or toggle		
95	...Automatic catch
